

CONTENTS

1.Introduction	1
2. System analysis	2
2.1 Existing system	2
2.2 Proposed system	3
2.3 System requirement specification	3
2.3.1 Hardware specification	3
2.3.2 Software specification	4
2.3.3 Front End	4
2.3.4 Back End	5
2.4 Feasibility Analysis	6
2.5 Dataflow Diagram	7
3. System Design	15
3.1 Module Description	15
3.2 Input Design	15
3.3 Output Design	15
3.4 Database Design	16
4. System Testing and Implementation	21
4.1 System Testing	21
4.2 System Implementation	24
5. Security Technologies and Policies	25
6. Maintenance	27
7. Scope for Future Enhancement	29
8. Conclusion	30
9. Bibliography	31
10. Appendix	32
10.1 Screenshots	32
10.2 Codes	44
